

I do not want the Do-Not-Call Registry Bill weakened. I do receive much fewer unwanted calls from telemarketers but still I receive some. It is not unusual to be awakened on a Saturday morning at 7:15 AM by a telemarketer. I now take the phone off the hook. None of those who called had a business relationship with me during the last 18 months.

...so please keep the law strong on these unsolicited calls.

Ann
